

GORDON WALLACE

FRONT AND BACK-END SOFTWARE DEVELOPER / BLACKSMITH

While going to back to school I learned about programming, and I have fallen in love with it and I knew that I will be doing this for the rest of my life. Now I want to be the very best like no one ever was!

Skills

Full Stack Web & Web Applications Development, Ruby, Rails, Healing Genji, HTML5, CSS3, JQuery, AngularJS, MySQL, Terran, Postgres, GitHub, C#, C++, Byebug, Pry, hobby Blacksmith

Experience

Kuma-Ko – Paid Internship

American fork UT

July 07, 2017 - present

Daily routine includes working in a team to make websites from the **Ruby** and **Rails** framework, creating the **front-end** in **Html** and **Css** to match the desires of the client, and pairing the **front-end** with the **back-end** while eating a whole lot of gummy bears.

Projects

Portfolio Site Project: feature rich, full implication of action cable. Shows off all projects I have done and has a blog feature. Its build in **Ruby** and **Rails** for the **back-end**, **Html** and **Css** for the **font-end**. Uses **Bootstrap** for the styling and **Devise** to handle all of the users login functions.

Rails Project for Overtime: This App will allow people to see if they are getting their overtime approved. Its build in **Ruby** and **Rails** for the **back-end**, **Html** and **Css** for the **font-end**. I used **administrat** for the admin users for this site and **devise** for all other users. Uses **Byebug** for testing.

Cookie Wednesday: A website for a bakery that allows people to email the bakery from the website. **Html** and **Css** for the **font-end**. Used **Materialize** for the gallery slide show.

Other Work Experience - Years (2007-2017)

Intercap Lending – Flagship Financial– Draper UT
